One problem with helicoptering is that there are virtually no flying clubs, at least of the sort that exist for fixed wing, so pilots get very little chance to swap stories, unless they meet in a muddy field somewhere, waiting for their passengers. As a result, the same mistakes are being made and the same lessons learnt separately instead of being shared - it's comforting sometimes to know that you're not the only one to inflate the floats by accident! Even when you do get into a school, there are still a couple of things they don't teach you, namely that aviation runs on paperwork, and how to get a job, including interview techniques, etc - flying the aircraft is actually less than a third of the job. Another is that nobody really tells you anything, either about the job you have to do (from the customer) or how to do it (the company) - you will always be up against the other guy who managed to do it last week! Sure, there will be training, but, even in the best companies, this will be relatively minimal. This book is an attempt to correct the above situations by gathering together as much information as possible for helicopter pilots, old and new, professional and otherwise, in an attempt to explain the why, so the how will become easier (you will be so much more useful if you know what the customer is trying to achieve). In short, this is all the stuff nobody taught me - every tip and trick I have learnt has been included.

Tom Bielawski is a bright light in today's dark sea of new writers. His writing gives me hope for the next generation of dreamers. I highly recommend both him and his works." - NYT Bestselling author, Tracy Hickman. A dark and powerful magic, lost the world for centuries, stirs once more. The Dark Disciples, infamous villains once thought vanquished, have returned. Carym of Hyrum, accused murderer, is freed from captivity by a band of criminals. To repay the debt he must undertake a quest to find the mythical Everpool and bring back a vial of its enchanted water. Minions of a dark god hunt Carym, for he is the key to unlocking a power greater than their own. If they cannot turn him, they will destroy him.

Private Hiram Terman was captured at Gettysburg, sent to Andersonville--and survived. The author, who is Hiram's descendant, revisits the camps, battlegrounds, and prisons, to write as if he were Private Terman of the 82nd Ohio Infantry.

This book will show you how to transition from previous versions of Microsoft® Visual Studio, to Visual Studio 2010. The book will showcase new features in Visual Studio 2010 that ease the creation of applications. Real-world applications will be used throughout to demonstrate the features and ease of use. This book is for professional developers who are working with previous versions of Visual Studio and are looking to make the move to Visual Studio 2010 Professional. The book is not a language primer, a language reference, or a single technology book. It's a book that will help professional developers move from previous versions of Visual Studio (starting with 2003 and on up). It will cover the features of Visual Studio 2010 through an application. It will go through a lot of the exciting new language features and new versions of the most popular technologies without putting the emphasis on the technologies themselves. It will instead put the emphasis on how you would get to those new tools and features from Visual Studio 2010. If you are expecting this book to thoroughly cover the new Entity Framework or ASP.NET MVC 2, this is not the book for you. If you want to read a book where the focus is on Visual Studio 2010 and on the reasons for moving to Visual Studio 2010, this is the book for you.

The acclaimed author of the intensely powerful novel Pretty Birds, Scott Simon now gives us a story that is both laugh-out-loud funny and heart-piercing – as sprawling and brawling as Chicago, where politics is a contact sport. The mayor of Chicago is found in his office late at night, sitting in his boxer shorts, facedown dead in a pizza. The mayor was a hero and a rascal: dynamic, charming, ingenious, corruptible, and a masterly manipulator. The city mourns. But it ' s discovered that the mayor was murdered – shortly after he may have begun to squeal on some of his colleagues at City Hall. Over the next four days, police race to find the mayor ' s killer, while the politicians who bemoan his passing scramble for his throne.
