Basically, you can be a "leader" in IT without any prior knowledge of IT. It's well written (that's why I'm giving it 2 stars) but the protagonist basically weaseled his way into a job (my opinion) by being "vocal" on issues he has no understanding of... then gets that same job and has to do the same things he was "vocal" against.

Becoming an effective IT manager presents a host of challenges--from anticipating emerging technology to managing relationships with vendors, employees, and other managers. Ultimately, a good IT manager must be a strong business leader, not just a technical specialist. By inviting you to "walk in the shoes" of an IT leader, this book will help you better understand the role of IT in your organization and navigate your own career with greater confidence.

The Adventures of an IT Leader An Individual Book Report I find this book remarkable as it is not the typical IT book that bombards non-IT people with jargons and technical terms. challenges--from anticipating emerging technology to managing relationships with vendors, employees, and other managers. A good IT manager must also be a strong business leader. This book invites you to accompany new CIO Jim Barton to better understand the role of IT in your organization. You'll see Jim struggle through a challenging first year, handling (and fumbling) situations that, although fictional, are based on true events. You can read this book from beginning to end, or treat it as a series of cases. You can also skip around to address your most pressing needs. For example, need to learn about crisis management and security? Read chapters 10-12. You can formulate your own responses to a CIO's obstacles by reading the authors' regular "Reflection" questions. You'll turn to this book many times as you face IT-related issues in your own career.

The day-to-day challenges faced by the average CIO are not usually the stuff of epic drama--except when they are. Enter our hero: Jim Barton, the new CIO of the fictional IVK Corporation. He is the creation of authors Robert Austin, Richard Nolan, and Shannon O' Donnell, and his story gives a practical yet entertaining look at the true adventures of an IT leader. Based on the authors' years of first-hand experience with diverse companies, the story begins as the IVK Corporation struggles to recover from a period of slowing growth and falling stock prices. An aggressive new CEO handpicks Barton to be CIO--even though Barton has no background in IT. We follow Barton's adventures as he discovers what effective IT management is all about, deals with the everyday challenges of the job, responds to major crises, and remakes the company's technology capabilities into a vital strategic asset. Read the book from beginning to end or treat it as a series of case studies; the "ways of using this book" section explains which chapters cover which subjects, while the authors' reflection questions help you puzzle through the problems in each episode. Now fully updated and with a new preface by the authors, *The Adventures of an IT Leader* is an engaging way to enhance your IT leadership skills.

What does it take to lead and manage your company's tech? Becoming an effective IT leader and manager presents a host of challenges—from anticipating emerging technologies, to managing relationships with senior executives, vendors, and employees, to

communicating with the board. A good IT leader must also be a strong business leader. This book—now thoroughly updated with a new preface by the authors and current tech details and terminology—invites you to accompany new CIO Jim Barton as he steps up to leadership at his company. You ’ ll get a deeper understanding of the role of IT in your own organization as you see Jim struggle through a tough first year, handling (and fumbling) all kinds of management challenges. Although fictional, the scenarios are based on the authors ’ long experience working with real-life companies across industries and sectors. The Adventures of an IT Leader is both an insightful story and an instructive guidebook. You can read it from beginning to end or treat it as a series of cases, skipping around to different chapters that address your most pressing needs. (For example, if you need to learn about crisis management and security, read chapters 10 – 12.) You can also test yourself and think about how to use the book ’ s lessons in your own company by reading the authors ’ “ Reflection ” questions at the end of each chapter. This book is your indispensable manual for IT management and leadership, no matter what business you ’ re in.

Today ’ s CEO must be a global leader who also understands that parts of the business must be managed locally. Someone who sets a strategic vision, though industry and technology disruptions will surely threaten that vision. Someone who must live in the future to go to the future, while continuously creating economic and social value. Not an easy task. Harder Than I Thought is a fictional narrative that puts this increasingly complex job in context—by enabling you to

walk alongside Jim Barton, the new CEO of Santa Monica Aerospace, as he steps into the role. Barton ' s story, developed in consultation with seasoned, real-life CEOs, contains crucial lessons for all leaders hoping to master the new skills required to move into the C-suite.

Observations From a Lifetime of Leadership Bill Donaldson cofounded the innovative investment firm Donaldson Lufkin & Jenrette, served in the State Department under Henry Kissinger, and was the founding dean of the Yale School of Management. He led the New York Stock Exchange and insurance giant Aetna through tumultuous change, and championed reform as chairman of the Securities and Exchange Commission. It's an amazing life full of challenges and successes and of high-level, innovative problem solving. In *Entrepreneurial Leader*, he offers a lifetime of observations about what it takes to build lasting value in organizations of every kind.

*Adventures of Charter School Creators* takes the reader inside the world of individual educational entrepreneurs who have created charter schools from scratch and lived to tell about it. Drawn from examples across the country, individuals (and a few teams) tell their stories of the victories they enjoyed and the defeats they overcame to create their schools. They include an Episcopal priest working in the Pico-Union community of Los Angeles, a corporate attorney in Miami, a manpower training specialist in East Saint Louis, the chief financial officer of a major African American church in New York City, a retired military officer in North Carolina, as well as experienced school teachers and administrators. From these stories Deal

and Hentschke extract and examine the issues of school leadership that are peculiar to those school leaders who have chosen to create schools from scratch. This book: Examines entrepreneurial leadership as a concrete manifestation of school leadership. Sheds light on the concrete differences between leadership in relatively autonomous start-up charters and the relatively dependent traditional schools. Anchors charter school leadership within the context of general (non-education) leadership and distinguishes it from what is typically associated with school leadership today. It describes: The general forces in society which are pushing public K-12 education into market-based initiatives. The general leadership issues of any break-away or start-up enterprise. Will be of interest to all educators.

There is no braver officer in Napoleon ' s cavalry than é tienne Gerard – especially in his own opinion. Whether kidnapped by gangs of brigands or outnumbered by enemy troops, the plucky little soldier is constantly gallant, chivalrous and ready to face any danger, even if he doesn ' t always think before he acts. With great gusto Gerard recounts the swashbuckling exploits and adventures of his glittering military career – carrying out secret missions for Napoleon, eluding capture by the Duke of Wellington, making a daring break from an English prison, rescuing ladies in distress, duelling to the death against the dastardly Baron Straubenthal and even saving the day at the Battle of Waterloo.

In Off-Road Disciplines, Earl Creps reveals that the on-road practices of prayer and Bible reading should be

bolstered by the other kinds of encounters with God that occur unexpectedly—complete with the bumps and bruises that happen when you go “ off-road. ” Becoming an off-road leader requires the cultivation of certain spiritual disciplines that allow the presence of the Holy Spirit to arrange your interior life. Earl Creps explores twelve central spiritual disciplines—six personal and six organizational—that Christian leaders of all ages and denominations need if they are to change themselves and their churches to reach out to the culture around them.

A business leadership book written in story format. Haunting the CEO follows the story of failing CIO Brian Kagey, who must learn what it means to become a true business leader in order to save his job and career.
