This global
status report on

prevention and
control of NCDs

(2014), is

framed around

the nine

voluntary global

targets. The

report provides

data on the

current

Bookmark File

PDF Askep

situation, identifying bottlenecks as well as opportunities and priority actions for attaining the targets. The 2010 baseline estimates on NCD mortality and risk factors are provided so that

Bookmark File

PDF Askep

countries can report on progress, starting in 2015. In addition, the report also provides the latest available estimates on NCD mortality (2012) and risk factors, 2010-2012. All

Bookmark File

PDF Askep

ministries of health need to set national NCD targets and lead the development and implementation of policies and interventions to attain them. There is no single pathway to attain NCD targets that

Bookmark File

PDF Askep

fits all
countries, as
they are at
different points
in their
progress in the
prevention and
control of NCDs
and at different
levels of
socioeconomic
development.
However all
countries can

Bookmark File
