In Deke Copenhaver's The Changemaker: The Art of Building Better Leaders, you will learn to become unafraid of doing something different in the service of a good cause and how to spark a movement that others can't help but rally around. The Changemaker is a roadmap of sorts, designed to deliver comprehensive, common sense leadership strategies to people from all walks of life. Through personal and professional anecdotes, case studies, and the wisdom from Changemakers gone by, The Changemaker will inspire and empower you to embrace adversity, rely on creativity and character, and sometimes take the road less traveled in order to unlock your ultimate potential.

2020 Book Excellence Award Winner How any leader can deliver business-changing innovation now. Any leader in any size company, no matter the size or sector, feels the pressure to innovate, find new ideas and business models, and create enduring customer value. There is no one formula or set process to find and execute the ideas that achieve these goals; customers set moving targets, shareholders are unforgiving and demanding, and society expects companies to care about much more than the bottom line. The fast and furious forces of change stimulated by technology, demographics, lifestyles, and economic, environmental, political and regulatory impacts — or any number of these in combination — are easy to see. They are easy to talk about. They are easy to intellectualize. The problem? The answers are hard to execute and require nuanced combinations of leadership, skills, strategy and tactics. On top of that, innovation has moved from an abstraction that will matter at some distant date to a front-and-center deliverable that must show evidence of impact in the space of the calendar quarter. In the stories, tools, techniques and advice inside The Change Maker's Playbook, leaders will find tangible steps to find and safeguard the plans that will deliver the sustainable business-changing impacts — new customers, new relationships, new sources of value and growth— their businesses need. Separated from the pack of academic and consultant innovation theories, Radin's approaches stems from her own experience sitting in the innovation hot seat at some of the world's most demanding companies and is bolstered by interviews with 50 corporate executives, founders and startup investors representing media, e-commerce, payments, healthcare, government, professional services, and not-for-profit sectors. The book walks readers through Radin's adaptive, 9-part framework, engaging them in ready-to-apply techniques. Her work shows leaders how to find the big ideas that will meaningfully address customer needs, take the insight from idea through implementation in a way that delivers in the short and long-term for the organization, and lead effectively through the obstacles that tend to derail or diminish innovation. Three phases — Seeking, Seeding and Scaling — organize the framework within an intuitive, logical and useable format, with concrete actions outlined every step of the way. The answer to the dilemma every business faces today is that innovation is exhilarating, rewarding and even fun when it is approached as a unique challenge, but it can also be polarizing, unpredictable, and scary. Success requires that leaders rethink how they lead innovation. Leaders know they must set aside preconceived notions of what works, and look to those who have already walked in their shoes. This is why The Change Maker's Playbook was written, and why it will become an ongoing resource for any innovation leader. What is a Changemaker? A person who sees the potential for the world to be a better place. A "social entrepreneur" who finds their way around problems in their quest for positive change. An innovator who shares their solutions with other communities and encourages others to make their own change. Answer: All of the above! In this new addition to the Ripple Effects series (When Children Play, Pay It Forward Kids), you'll meet sixteen changemakers—boys, girls, men, and women. All of them are part of Ashoka, an organization that offers networking, mentorship, and financial aid to social entrepreneurs of all ages around the world. Each member strives to make a difference in the world, from animal rights to environmentalism, preservation of Aboriginal culture to food conservation, and you'll learn about how they've made global changes, the challenges they faced, and how you can start your own initiative! Named after a famous Indian king of long ago, the Ashoka network was created as an agency to help and offer support to people who have a dream — people who want to build on their ideas, accomplish things and to make the world a better place one step at a time. Ashoka is a network of social entrepreneurs who have all benefitted from the relationships they have had with other changemakers throughout the group — receiving their encouragement, advice and assistance. This book looks at sixteen individuals who have accomplished amazing work from lighting jungle villages to building the perfect playground. The network offers mentorship and financial help to people from around the world so they can accomplish even more with their ideas and plans. It has helped more than 3000 social entrepreneurs in more than 70 countries through its mentoring programs including: Amy Barzach of South Windsor, Connecticut whose "Jonathan's Dream" program creates accessible playgrounds; Chris Balme of Philadelphia, Pennsylvania whose "Spark" apprenticeship program helps high school students in danger of dropping out; Joaquin Legua of Lima, Peru whose "Children's Forests" program teaches children about planting and becoming stewards of the land; and, Tomas Lang of Burnaby, British Columbia whose program encourages schools to change the way they handle waste with an emphasis on "reduce, reuse and recycle." In addition to the inspirational features on the sixteen changemakers, Ashoka includes a section on how to get started being a changemaker along with a list of the things that can be done right now -- to make a difference in the world we all live in.

"It blows my mind that throughout history, being able to change the world was something only revolutionaries, freedom fighters and the rich and powerful could do. Today, we all have the power to take action and make change happen. This idea applies to literally every single one of us. Now, after spending years figuring out exactly how to do that, I feel a responsibility to share this knowledge with young changemakers like you!" In this book, you'll discover a holistic, individualistic approach to social change that helps you differentiate between actions and outcomes of individual/collective change or systemic change, and formal or informal change. Plus, it's filled with personal stories from Tiyan's own journey, so you can see the framework applied to solving real-world issues. Tiyan is a PhD student, activist, humanitarian, and social entrepreneur passionate about communication for social change. She founded the Humanitarian Changemakers Network, with the goal of equipping and empowering more young people to take action and change the world.
