Change In

The establishment of
electoral systems in
Kazakhstan, Kyrgyzstan
and Uzbekistan presents
both a complex set of
empirical puzzles and a
theoretical challenge.

Why did three states
with similar cultural,
historical, and structural

Read Online

Beyond

legacies establish such different electoral systems? How did these distinct outcomes result from strikingly similar institutional design processes? Explaining these puzzles requires understanding not only the outcome of institutional design but also the intricacies of the process that led to this outcome. Moreover,

Read Online

Beyond

the transitional context
in which these three
states designed new
electoral rules

necessitates an approach
that explicitly links
process and outcome in
a dynamic setting. This
book provides such an
approach. Finally, it
both builds on the key
insights of the dominant
approaches to
explaining institutional

origin and change and transcends these approaches by moving beyond the structure versus agency debate.

Political

Economies

Institutions are failing in many areas of

contemporary politics, not least of which concerns climate change. However, remedying such problems is not

Read Online

Beyond

straightforward.

Pursuing institutional improvement is an intensely political process, playing out over extended timeframes, and intricately tied to existing setups. Such activities are open-ended, and outcomes are often provisional and indeterminate. The question of institutional

Read Online

Beyond

Continuity, therefore, centers on understanding how institutions are (re)made within complex settings.

This Element develops an original analytical foundation for studying institutional remaking and its political dynamics. It explains how institutional remaking can be observed and provides a

Read Online

Beyond

typology comprising five areas of institutional production involved in institutional remaking (Novelty, Uptake, Dismantling, Stability, Interplay).

This opens up a new research agenda on the politics of responding to institutional breakdown, and brings sustainability scholarship into closer dialogue with

Change In

The main focus of the

book is institutional

change in the

Scandinavian model,

with special emphasis

on Norway. There are

many reasons to pay

closer attention to the

Norwegian case when it

comes to analyses of

Read Online

Beyond

changes in the public sphere. In the country's political history, the arts and the media played a particular role in the processes towards sovereignty at the beginning of the 20th century. On a par with the other Scandinavian countries, Norway is in the forefront in the world in the distribution and uses of Internet

Read Online

Beyond

technology. As an extreme case, the most corporatist society within the family of the “Nordic Model”, it offers an opportunity both for intriguing case studies and for challenging and refining existing theory on processes of institutional change in media policy and cultural policy. It

Read Online

Beyond

Continuity supplements two recent, important books on political economy in Scandinavia: Varieties of Liberalization and the New Politics of Social Solidarity (Kathleen Thelen, 2014), and The Political Construction of Business Interests (Cathie Jo Martin and Duane Swank, 2013). There are further reasons to pay particular

Read Online

Beyond

attention to the

Scandinavian, and more specifically the

Norwegian cases: (i)

They are to varying

degrees neo-corporatist societies, characterized

by ongoing bargaining

over social and political

reform processes. From

a theoretical perspective

this invites reflections

which, to some extent,

are at odds with the

Read Online

Beyond

dominant conceptions of institutional change.

Neither models of path dependency nor models of aggregate,

incremental change focus on the continuous social bargaining over institutional change. (ii)

Despite recent processes of liberalization, common to the Western world as a whole, corporatism implies a

Read Online

Beyond

close connection

between state, public sphere, cultural life, and religion. This also

means that institutions are closely bundled, in an even stronger way than assumed for

example in the Varieties of Capitalism literature.

Furthermore, we only have scarce insight in the way the different spheres of corporatism

Read Online

Beyond

are connected and interact. In the proposed edited volume we have collected historical-institutional case studies from a broad set of social fields (a detailed outline of contents and contributors is attached):

- Critical assessments of Jürgen Habermas' theory of the public sphere
- Can the public sphere be

framework and
empirical applications.

It is increasingly
accepted that
'institutions matter' for
economic organization
and outcomes. The last
decade has seen
significant expansion in
research examining how
institutional contexts
affect the nature and
behaviour of firms, the

Read Online

Beyond

operation of markets,
and economic outcomes.

Yet 'institutions' conceal
a multitude of issues

and perspectives. Much
of this research has been
comparative, and
followed different

models such as 'varieties
of capitalism', 'national
business systems', and
'social systems of
production'. This

Handbook explores

Read Online

Beyond

these issues, perspectives, and models, with the leading scholars in the area contributing chapters to provide a central reference point for academics, scholars, and students.

Greece banked on EMU. Entry into the eurozone was its ticket to macroeconomic
