Historians are concerned today that the Spaniards' early accounts of their first experiences with the Indians in the Americas should be balanced with accounts from the Indian perspective. We People Here reflects that concern, bringing together important and revealing documents written in the Nahuatl language in sixteenth-century Mexico. James Lockhart's superior translation combines contemporary English with the most up-to-date, nuanced understanding of Nahuatl grammar and meaning. The foremost Nahuatl conquest account is Book Twelve of the Florentine Codex. In this monumental work, Fray Bernardino de Sahagún commissioned Nahuas to collect and record in their own language accounts of the conquest of Mexico; he then added a parallel Spanish

account that is part summary, part elaboration of the Nahuatl. Now, for the first time, the Nahuatl and Spanish texts are together in one volume with en face English translations and reproductions of the copious illustrations from the Codex. Also included are five other Nahua conquest texts. Lockhart's introduction discusses each one individually, placing the narratives in context.

Two major dividing lines have formed the megastructure of Eurasia, determining the historical epochs of the continent's peoples. The first, vertical (longitudinal) line has separated East and West since the Paleolithic Age. The East was dominated by Mongol peoples speaking

Sino -Tibetan, Manchu-Tungus, and Altaic languages. The Caucasoid peoples of the West spoke mostly Indo-European, Semite, and Finno-Ugric languages. The second line divided the continent horizontally (by latitude) into North and South. This division was closely connected with the Eurasian Steppe Belt. To the north of it lay the world of hunter-gatherers and fishermen. To the south, settled agriculture was dominant. The Steppe Belt itself was the domain of pastoralists, the nomadic and semi-nomadic herders. These lines converged at the entrance to the Great Silk Road. With the swift development of horse domestication and horseback riding, the nomads moved--from the Early Metal Age (500-400 BCE) to Genghis Khan's and the Genghisid's Great Empire (1200-1400 CE)--to the forefront of Eurasian history as their world became increasingly involved in dramatic and sometimes tragic relationships with their southern neighbors. This book focuses on the tangle of problems in these nomadic peoples' history.
