Sleep apnea (AP-ne-ah) is a common disorder in which you have one or more pauses in breathing or shallow breaths while you sleep. Breathing pauses can last from a few seconds to minutes. They often occur 5 to 30 times or more an hour. Typically, normal breathing then starts again, sometimes with a loud snort or choking sound.

What does it take to change the world? This book will show you how to harness the power of CASCADES to create a revolutionary movement! If you could make a change—any change you wanted—what would it be? Would it be something in your organization or your industry? Maybe something it’s in your community or throughout society as a whole? Creating true change is never easy. Most startups don’t survive. Most community groups never get beyond small local actions. Even when a spark catches fire and protesters swarm the streets, it often seems to fizzle out almost as fast as it started. The status quo is, almost by definition, well entrenched and never gives up without a fight. In this groundbreaking book, one of today’s top innovation experts delivers a guide for driving transformational change. To truly change the world or even just your little corner of it, you don’t need a charismatic leader or a catchy slogan. What you need is a cascade: small groups that are loosely connected but united by a common purpose. As individual entities, these groups may seem inconsequential, but when they synchronize their collective behavior as networks, they become immensely powerful. Through the power of cascades, a company can be made anew, an industry disrupted, or even an entire society reshaped. As Satell takes us through past and present movements, he explains exactly why and how some succeed while others fail.

Take a globetrotting journey all over the world--and beyond!--with this companion art book to the hit video game for the Nintendo Switch(TM) system! In October of 2017, Super Mario Odyssey(TM) took the gaming world by storm. Now, discover the art and expertise that went into creating one of Nintendo's best-loved games! This full-color hardcover volume clocks in at 368 pages and features concept art, preliminary sketches, and notes from the development team, plus insight into some early ideas that didn't make it into the game itself! Explore the world of Super Mario Odyssey from every angle, including screen shots, marketing material, and more, to fully appreciate this captivating adventure

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.

What are these graceful visitors to our skies? We now know that they bring both life and death and teach us about our origins. Comet begins with a breathtaking journey through space astride a comet. Pulitzer Prize-winning astronomer Carl Sagan, author of Cosmos and Contact, and writer Ann Druyan explore the origin, nature, and future of comets, and the exotic myths and portents attached to them. The authors show how comets have spurred some of the great discoveries in the history of science and raise intriguing questions about these brilliant visitors from the interstellar dark. Were the fates of the dinosaurs and the origins of humans tied to the wanderings of a comet? Are comets the building blocks from which worlds are formed? Lavishly illustrated with photographs and specially commissioned full-color paintings, Comet is an enthralling adventure, indispensable for anyone who has ever gazed up at the heavens and wondered why. Praise for Comet "Simply the best." —The Times of London "Fascinating, evocative, inspiring." —The Washington Post "Comet humanizes science. A beautiful, interesting book." —United Press International "Masterful . . . science, poetry, and imagination." —The Atlanta Journal & Constitution

The park covers an area in Clearwater, Beltrami, Becker and Hubbard counties.

From the co-author of the New York Times bestseller Team of Teams, a practical guide for leaders looking to make their organizations more interconnected and unified in the midst of sudden change. Too often, companies end up with teams stuck in their own silos, pursuing goals and metrics in isolation. Their traditional autocratic structures create stability, scalability, and predictability -- but in a world that demands rapid adaptation to a new reality, this traditional model simply doesn't work. In Team of Teams, retired four-star General Stanley McChrystal and former Navy SEAL Chris Fussell made the case for a new organizational model combining the agility, adaptability, and cohesion of a small team with the power and resources of a giant organization. Now, in One Mission, Fussell channels all his experiences, both military and corporate, into powerful strategies for unifying isolated and distrustful teams. This practical guide will help leaders in any field implement the Team of Teams approach to tear down their silos improve collaboration, and avoid turf wars. By committing to one higher mission, organizations develop an overall capability that far exceeds the sum of their parts. From Silicon Valley software giant Intuit to a government agency on the plains of Oklahoma, organizations have used Fussell's methods to unite their people around a single compelling vision, resulting in superior performance. One Mission will help you follow their example to a more agile and resilient future.

An assortment of 18 pieces to pick and mix - from easy classics to great new pieces, this collection covers it all! All Sorts is designed to fit the technique and capabilities of the young player, with easy-to-play piano accompaniments for the teacher.
