A comprehensive introduction to the tools, techniques and applications of convex optimization.

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: **⊕** an explanation of the key aspects of the CEFR for teaching and learning; **⊕** a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre/Ā1 level, plus enriched description at Ā1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; **⊕** a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: **⊕** promote and support the learning and teaching of modern languages; **⊕** enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; **⊕** protect linguistic and cultural diversity in Europe; and **⊕** promote the right to quality education for all.

Liberte is a French language textbook for first-year college students. Please note that an instructor guide is included as a downloadable attachment.

With construction techniques becoming ever more complex, and population pressure leading to the development of increasingly problematic sites, expertise in the area of soil structure interaction is crucial to architectural and construction industries worldwide. This book contains the proceedings of the ISSMGE Technical Committee 207 International Conference on Geotechnical Engineering - Soil Structure Interaction and Retaining Walls - held in St Petersburg, Russia, in June 2014. The conference was dedicated to the memory of the outstanding geotechnical expert Gregory Porphyryevich Tschebotarioff. Topics covered at the conference included: soil structure interaction, underground structures and retaining walls, site investigation as a source of input parameters for soil structure interaction, and interaction between structures and frozen soils. The papers included here are the English language papers. Papers presented by the authors in Russian are published by the Georeconstruction Institute of St. Petersburg.

An unmissable collection of eight unconventional and captivating short stories for young and adult learners. "I love Oily's work - and you will too!" - Barbara Oakley, PhD, Author of New York Times bestseller A Mind for Numbers Short Stories in French for Beginners has been written especially for students from beginner to intermediate level, designed to give a sense of achievement, and most importantly - enjoyment! Mapped to A2-B1 on the Common European Framework of Reference, these eight captivating stories will both entertain you, and give you a feeling of progress when reading. What does this book give you? - Eight stories in a variety of exciting genres, from science fiction and crime to history and thriller - making reading fun, while you learn a wide range of new vocabulary - Controlled language at your level, including the 1000 most frequent words, to help you progress confidently - Authentic spoken dialogues, to help you learn conversational expressions and improve your speaking ability - Pleasure! It's much easier to learn a new language when you're having fun, and research shows that if you're enjoying reading in a foreign language, you won't experience the usual feelings of frustration - "It's too hard!" As a result, you will be able to focus on enjoying reading, delighting in your improved range of vocabulary and grasp of the language, without ever feeling overwhelmed or frustrated. From science fiction to fantasy, to crime and thrillers, Short Stories in French for Beginners will make learning French easy and enjoyable.

This practical grammar book is the result of 16 years of teaching online to adults and young students located all over the world. I believe that French grammar should not been a stumbling block to learning the language and should not discourage learners of French to embrace the beautiful journey of becoming fluent. Hence, I felt that it was important to explain the grammar rules in English and in the simplest way possible without including too much grammar jargon, so that a beginner could grasp the essential elements of grammar to build sentences. Every grammar point is followed with exercises to practice what has been taught. Whenever possible, the answers are included in the back of the book (some answers are open ended questions and therefore have no right or wrong answers). This grammar book is aimed to teach A1 levels (total beginners) to the B1 level (intermediate level). Perfect for self-study, but also ideal for supplementary grammar activities in the classroom. Step by step with a teacher or on their own, French learners can learn to construct their sentences and gain plenty of practice.
