Ken Miles is one of the most famous sports car racers in history, and his time at Shelby American was the pinnacle of his career. Ride shotgun with Ken Miles through the twists and turns of Sebring, Laguna Seca, Riverside, and Le Mans as seen through the lens of Shelby American photographer Dave Friedman! The hiring of Ken Miles by Carroll Shelby in February 1963 initiated arguably the greatest pairing of driver/owner partnerships in the history of motorsports. Not only did Shelby hire Competition Manager Ken Miles as an accomplished road racer but also Miles brought professionalism, innovation, and a keen attribute of being able to surround himself with budding, talented individuals. The list of race cars that Ken piloted at Shelby American is nearly unrivaled: the Shelby 289 Cobra, 390 Cobra, 427 Cobra, King Cobra, Shelby Daytona, Mustang GT350R, and Ford GT. Ken dominated the 1964 United States Road Racing Championship (USRRC) racing season by winning 8 of 10 races to secure the Manufacturers' Championship. However, it was at Le Mans where Ken Miles became a worldwide household name. The robbery that was the 1966 24 Hours of Le Mans is laid out in excruciatingly accurate detail as Ford royalty Carroll Shelby, Carroll Smith, Homer Perry, Leo Beebe, Charlie Agapiou, Bob Negstad, Carroll Smith, and Peter Miles recall the race and the tragedy that followed two months later. Recapture Ken Miles’s career as told by esteemed Shelby American photographer Dave Friedman in this firsthand account titled Ken Miles: The Shelby American Years!

This beautifully designed and illustrated essential guide to Ferrari from Motorbooks' Speed Read series celebrates the world's premier performance-car manufacturer, from the first complete car Enzo Ferrari constructed in 1940—the Auto Avio Costruzioni—to masterpieces produced by Ferrari today. Author Preston Lerner covers 50-plus aspects key to understanding Ferrari’s amazing history, including both racing and production cars, design and technology, and the personal histories of key figures. In sections divided by topic, you'll explore the story of Ferrari’s founding; descriptions and critiques of over 25 different Ferrari models, including the milestone racers, lust-inspiring road cars, and dominating F1, sports, and prototype racecars; profiles of the most famous Ferrari drivers; recaps of Ferrari’s most memorable racing wins; and a survey of all the stylists, coachbuilders, engineers, salesmen, and executives who have contributed to Ferrari’s success. Each section ends with a glossary of related terms, and informational sidebars provide fun facts, historical tidbits, and mini-bios of key people in Ferrari history. Sleek illustrations of the cars bring the evolution of the company to life. With Motorbooks’ Speed Read series, become an instant expert in a range of fast-moving subjects, from Formula 1 racing to the Tour de France. Accessible language, compartmentalized sections, fact-filled sidebars, glossaries of key terms, and event timelines deliver quick access to insider knowledge. Their brightly colored covers, modern design, pop art–inspired illustrations, and handy size make them perfect on-the-go reads.

This beautifully designed and illustrated essential guide to car design from Motorbooks' Speed Read series traces the inspirations of the first car designers and tracks the craft, the art, and the science that have propelled successive generations of designers and shaped the contours of the vehicles we see all around us. Never before has the car-buying public been more aware of how a car’s design fits into their everyday lives and what it communicates about the driver behind the wheel. Like all design, car design is complex subject. Every part of a car represents myriad decisions by the design team ruled by engineering, aesthetics, human interface, and emotion. Speed Read Car Design helps the you understand the hows and whys of that design process, offering an engaging review of history, theory, key concepts, and key designers. It’s a book for car enthusiasts, design fans, and anyone with a desire to better understand why our wheeled world looks the way it does. In sections divided by topic, you'll explore the birth of car design, how it evolved over the last century, successes and failures in innovation, the elements that make up a car’s style, the engineering behind the design, the creative process and design fads, and finally the road ahead in car design. Each section ends with a glossary of related terms, and informational sidebars provide fun facts, historical tidbits, and mini-bios of key people in car design. Sleek illustrations of the cars give clear design examples throughout. With Motorbooks’ Speed Read series, become an instant expert in a range of fast-moving subjects, from Formula 1 racing to the Tour de France. Accessible language, compartmentalized sections, fact-filled sidebars, glossaries of key terms, and event timelines deliver quick access to insider knowledge. Their brightly colored covers, modern design, pop art–inspired illustrations, and handy size make them perfect on-the-go reads.

Carlo Abarth was a performance tuning maestro. He created and modified the small displacement Italian cars of the times, aiding his own tuned exhausts, cylinder heads and other components. The results were championship-winning racers and street cars. The Abarth Buyer’s Guide tells the story of all the Abarth cars, including the earliest Cisitalias, Fiats, Simcas, the Zagato and Bialbero cars, Porsche Abarth Carrera, Lancias, formula cars, record-setters and the sports racers. The book is built on an impressive archive of historical photographs, many of them rare original Abarth factory pictures. The detailed text chronicles the development history of Abarth, including specifications, restoration and authenticity notes, and the Buyer’s Guide star investment ratings. Author Peter Vack is an Abarth enthusiast of long standing, and he writes of the cars with passion and experience. Over a period of 13 years, the Abarth Buyer’s Guide has proven to be a very dependable and useful book for those interested in Abarth cars. Now in its third printing, it remains one of the best and most comprehensive Abarth books ever written. Of that we are proud. We hope that it will continue to encourage others to do further research and create enthusiasm for the restoration of all Abarths.

Conceived by Colin Chapman, the Lotus 72 is one of the most successful Formula 1 cars ever made. This innovative car – with its wedge-shaped profile, side-mounted radiators and inboard front brakes – was driven during 1970 by Jochen Rindt, Formula 1’s posthumous World Champion, and also gave Emerson Fittipaldi the World Champion’s crown in 1972. Here, in this new Haynes Manual, is a unique perspective on what it takes to restore, maintain and race a Lotus 72, as well as an insight into the design and engineering of this legendary racing car.
