lanes, bike sharing, and other topics. Bicycling in cities is booming, for many reasons: health and environmental benefits, time and cost savings, more and better bike lanes and paths, innovative bike sharing programs, and the sheer fun of riding. City Cycling offers a guide to this urban cycling renaissance, with the goal of promoting cycling as sustainable urban transportation available to everyone. It reports on cycling trends and policies in cities in North America, Europe, and Australia, and offers information on such topics as cycling safety, cycling infrastructure provisions including bikeways and bike parking, the wide range of bike designs and bike equipment, integration of cycling with public

transportation, and promoting cycling for women and children. City Cycling emphasizes that bicycling should not be limited to those who are highly trained, extremely fit, and daring enough to battle traffic on busy roads. The chapters describe ways to make city cycling feasible, convenient, and safe for commutes to work and school, shopping trips, visits, and other daily transportation needs. The book also offers detailed examinations and illustrations of cycling conditions in different urban environments: small cities (including Davis, California, and Delft, the Netherlands), large cities (including Sydney, Chicago, Toronto and Berlin), and “ megacities ” (London, New York, Paris, and Tokyo). These chapters

offer a closer look at how cities both with and without historical cycling cultures have developed cycling programs over time. The book makes clear that successful promotion of city cycling depends on coordinating infrastructure, programs, and government policies.

Strategic Reputation Management examines the ways in which organizations achieve "goodness" through reputation, reputation management and reputation strategies. It presents a contemporary model of strategic reputation management, helping organizations and stakeholders to analyze the business environment as a communicative field of symbols and meanings in which the organization is built or destroyed. Authors Pekka Aula and Saku Mantere introduce the eight generic reputation strategies, through which organizations can organize their stakeholder relationships in various ways.

when she moves to Papua New Guinea, to work. Because of her connection to wealth, she becomes the target of criminals. Because of her appearance, she attracts special interest at every turn. When aspiring teacher Michael Mannion hears about Ingrid's fate at the hands of kidnappers, he travels to Papua New Guinea to track her down and attempt a rescue. However, he encounters many surprises. What he doesn't know is that he's as much the problem as the solution. They say love conquers all, but in a country where it's hard to separate fact from fiction, the serious from the lighthearted, and good guys from bad guys, love may not be enough. For Ingrid and Michael, love is their path to salvation but this path

takes them on a different and sometimes unpredictable adventure."

Over the past two decades, the rapid emergence and spread of both local and transnational extremist organisations has become a primary source of insecurity in Africa. Extremist organisations represent the fluid and variable nature of conflict systems today and are at the heart of some of Africa ' s most enduring conflicts. Moreover, the inability of African states to contain the threat of extremism, or of heavy-handed security responses, has led to the loss of thousands of lives, displaced millions, and deeply impacted the continent ' s democratisation and development

goals. This is the second anthology published by Good Governance Africa (GGA) on the topic of extremism and political violence in Africa. Extremisms in Africa, one of the first anthologies of its kind on this topic to be authored - and published - on the African continent, provided an account of how extremist groups arose in Africa and the various ways in which they have harnessed their global agendas to local conflict dynamics and structural challenges, enabling them to exploit the grievances of individuals and communities for their cause. This anthology, Extremisms in Africa Volume 2, looks forward, giving special attention to the ways in which emergent trends, global geopolitics

and conflict dynamics merge to impact upon the African continent. To this end, we have sought to engage diverse topics ranging from ecological concerns surrounding climate change and migration, the implications of such human movement for modern-day trafficking and slavery, and the roles of women and youth. State responses to extremisms on the African continent are not uniform; the capacity of individual states to detect/identify, police, investigate and prosecute is highly variable. At the most fundamental level, extremisms are ripe to arise in contexts where governments are failing, especially when democracy is on the wane. This anthology identifies some of the most pressing challenges in addressing

extremisms today and provides chapters that could offer actionable policy insights to governments and civil society. Given the nature of Africa ' s geopolitical landscape, state and security services alone cannot prevent extremism. It will take a ' whole-of-society ' approach, where government, civil society, academia, communities, families, and individuals collaborate to better understand the local dynamics of recruitment and radicalisation and develop context-specific strategies in response. This anthology will hopefully provide practitioners with improved insight into some of the key challenges and potential solutions in preventing extremism, while also being of interest to the
