This book explores how modern Egyptians understand the Mamluks and reveals the ways in which that historical memory is utilized for political and ideological purposes. It specifically examines the representations of the Mamluks from two historical periods: the Mamluk Sultanate era (1250–1517) and the Mamluks under the Ottoman era (1517–1811) focusing mostly on the years 1760–1811. Although the Mamluks have had a great impact on the Egyptian collective memory and modern thought, the subject to date has hardly been researched seriously, with most analyses given to stereotypical negative representations of the Mamluks in historical works. However, many Egyptian historians and intellectuals presented the Mamluk era positively, and even symbolized the Sultans as national icons. This book sheds light on the heretofore-neglected positive dimensions of the multifaceted representations of the Mamluks and addresses the ways in which modern Egyptians utilize that collective memory.

This volume of 'Encyclopaedia Islamica' is the fifth of a projected 16-volume publication, consisting of an abridged and edited translation of the Persian Da'irat al-Ma'arif-i Buzurg-i Islami, one of the most comprehensive sources on Islam and the Muslim world. One unique feature of this work of reference lies in the attention it gives to Shi'i Islam and its rich and diverse heritage, which makes it complementary to other encyclopaedias. In addition to providing entries on important themes, subjects and personages in Islam generally, it offers the western reader an opportunity to appreciate the various dimensions of Shi'i Islam, the Persian contribution to Islamic civilisation, and the spiritual dimensions of the Islamic tradition.0.

The object of this volume is to provide within a moderate compass a compendious account of the history, institutions, and culture of ancient India from the dim ages of antiquity to the establishment of Moslem rule. It has not been planned to meet the needs of any particular class of readers. Its primary purpose is to serve alike students, scholars, and all others, interested in the study of ancient Indian history, as a book of ready use and reference. The pages which follow every attempt has been made to avoid presenting a mass of the dry bones of historical fact or over-burdening the account with intricate discussions on knotty problems of history, on the one hand, and giving a mere general and readable survey of India's long and fascinating past, on the other. I have endeavoured to tap and utilise properly the available sources of information, literary, epigraphic, and numismatic, and also to embody and set forth in a consistent manner the results of up-to-date researches on different topics and epochs. All the materials have been patiently sifted and critically examined with the sole desire to arrive at historical truth and scientific accuracy; and the unfortunate tendency, manifest in some modern publications, to extol or decry without warrant any of the manifold aspects of India's panoramic story, has been scrupulously eschewed This book gives an authoritative, up-to-date, and compendious account of the history, institutions and culture of India from the earliest times to the advent of the Moslem period. It is based on all available materials - literary, epigraphic, and numismatic - and is written in a most elegant, sober, and lucid style. The author brings to bear upon his task not only profound scholarship and critical acumen but also scrupulous regard for historical truth, the accuracy of facts and impartiality of judgement. The merit of the book has been enhanced by an exhaustive Bibliography and a comprehensive Index. Students, scholars and the general reader alike will find the book highly interesting, useful and valuable for study and references.
