Hidden in the mountains of East Tennessee, an eleven-year old goes about the business of being a boy during the summer of 1970. Within a balance of terror and innocence, he bears silent witness to ghosts of the dead and the cruelties of a teenage killer while local justice plays out in a community carved from legacies of coal mining and religion.

George Ritzer is one of the leading social and cultural commentators of the present day. In this essential new book he considers some of the main tendencies in contemporary social theory. Included here are Ritzer's latest reflections on the uses and misuses of metatheory. According to Ritzer, sociology is a multiparadigm science. The differences and intensities of rivalries between paradigms are often very confusing for students and even for professional sociologists. This book seeks to find a way out of the confusion by sketching out the lineaments of a new integrated sociological paradigm and demonstrates how this paradigm can be applied. It shows the various ways in which Ritzer has developed rationalization theory to shed light on professional integration, the shape of consumer culture, hyperirrationality and the state of sociology today.

This widely adopted text explores key theories and models that frame reading instruction and research. Readers learn why theory matters in designing and implementing high-quality instruction and research; how to critically evaluate the assumptions and beliefs that guide their own work; and what can be gained by looking at reading through multiple theoretical lenses. For each theoretical model, classroom applications are brought to life with engaging vignettes and teacher reflections. Research applications are discussed and illustrated with descriptions of exemplary studies. New to This Edition "Current developments in theory, research, and instructional practices." "Useful pedagogical features in every chapter: framing questions, discussion ideas, and learning activities." "Classroom applications give increased attention to English language learners and technology integration." "Coverage of additional theories (Third Space Theory) and theorists (Bakhtin and Bourdieu).
