Being a life coach is a fulfilling way to make money doing what you love, while making a difference! But, the truth is that not all life coaches are successful. Some never learn the skills they need to create a thriving business, and others get stuck because they're only able to reach a certain level of success, and income, by meeting one-on-one with clients. There is only so much time in a day, some of which is spent on marketing and other business-related-stuff. Once a coach fills their schedule with clients, they reach the ceiling of

their growth. Their only option is to raise their rates, but this isn't always easy or even appropriate, depending on the population they serve. The good news is that there is a way to serve more people and increase revenue at the same time. The secret to creating a successful life coaching business is offering group life coaching programs. Think about it, much of what you do with each client is exactly the same. If you say the same thing 10 times to 10 different people, why not say it to all of them at once? If you develop a program out of your coaching process, you can walk a group of people through the same coaching activities and steps, together. By creating a group coaching business, you can: 1) reach more people in less time, 2) offer an easy-to-sell low-cost option, 3) upsell your favorite clients to one-on-one coaching, 4) create a more predictable schedule and income, and 5) increase your per-hour revenue (\$50 x 10 is greater than \$150 x 1). In this book, you will find the exact blueprint that thousands of our life coaching students have used to create their own group life coaching programs. You'll learn everything you need to: 1) turn the process you use with your clients into a complete group coaching curriculum, 2) learn professional communication and facilitation skills so you can effectively manage and lead your group, and 3) structure your offer, set your price, and create marketing campaigns that fill your groups.

Do You Want To Be More Influential? Have you always wanted to be influential in a person's life? Are you looking to become a life coach or maybe your own life coach? This book will guide you to becoming a true authority in life coaching. You will learn how to maximize your ability for helping others.

What kind of life would you live if you didn't allow your fears to hold you back? The Courage Habit offers a powerful program to help you conquer your inner critic, work toward your highest aspirations, and build a courageous community. Are your fears preventing you from living the life you truly want? Do you ever wish that you had a better job, lived in a different city, or had more authentic and nurturing relationships? Many people believe that they would do more, accomplish more, and feel more fulfilled if only they could rid themselves of that fearful inner voice that constantly whispers, "you can't do it." In The Courage Habit, certified life coach Kate Swoboda offers a unique program based in cognitive behavioral therapy (CBT) and acceptance and commitment therapy (ACT) to help you act courageously in spite of fear. By identifying your fear triggers, releasing yourself from your past experiences, and acting on what you truly value, you can make courage a daily habit. Using a practical four-part program, you'll learn to understand the emotions that arise when fears are triggered, and to pause and evaluate your emotional state before you act. You'll discover how to listen without attachment to the self-defeating messages of your inner critic, understand the critic's function, and implement respectful boundaries so that your inner voice no longer controls your behavior. You'll

reframe self-limiting life narratives that can—without conscious awareness—dictate your day-to-day decisions. And finally, you'll nurture more authentic connections with family, friends, and community in order to find support and reinforce the life changes you're making. If you feel like something is holding you back from landing your dream job, moving to a new city, having a satisfying love relationship, or simply taking advantage of all life has to offer—and if you have a sneaking suspicion that that something is you—then this one-of-a-kind guide will show you how to finally break free from self-doubt and start living your best life.

This book gives life coaches a blueprint that will help them build a business that is profitable and enjoyable. It covers everything from defining your market, to designing programs and teleseminars. The PDE study resulted in a comprehensive life coaching business plan template designed specifically for the life coaching industry. An action research methodology was utilized to offer a solution to a practical concern for life coaches starting a new business. In an effort to generate more successful life coaches and enhance the profession of coaching, the study investigated two research questions: How is a business plan creation tool designed specifically for the life coaching profession useful for starting a life coaching business? What is the efficacy and effect of a specified life coaching business plan template? Six free workshops were held for life coaches and evaluated by a series of two debriefing questionnaires to contribute new knowledge on the usefulness and benefits associated with using a specialized business plan writing template. the majority of life coaches in the sample revealed they had not written a business plan for their life coaching business. Although coaches create a blueprint life plan with their clients, they are remiss in designing a blueprint to guide their life coaching business. Nearly all the life coaches in the study reported some benefit associated with use of the specialized life coaching business plan template, which included, but was not limited to: a moderate increase in income and clients; meeting business goals with moderate effectiveness; greater focus and clarity of the business; a plan to follow; and enhanced optimism and confidence related to the success of the business. the most common benefit was the template was specific and unique for life coaches and the profession of life coaching. A secondary phenomenon was also observed. Although the life coaches in the study expected positive results from the use of their new business plan, a large percentage did not comply with implementation of their business plan written from the specialized template. In conclusion, recommendations from the results of the

study included: the specialized business plan template could be further enhanced by a mechanism to increase implementation of the completed business plan; life coaches who refer to their specialized business plan template at least once a month or more will increase their number of clients and income; and recommendations by the subjects to improve the template may improve its value.
