lost productivity if all their users are equipped with basic email safety training. This book addresses this knowledge gap and is written for the non-tech savvy user in mind. Internet security involves all users not just the IT administrator. Topics addressed in the book are: passwords, how to spot a scam, what to do if scammed. The author had been an email consultant for the last 20 years with customers of all sizes from five men teams to government agencies.

This new edition covers some of the key topics relating to the latest version of MS Office through Excel 2019, including the creation of custom ribbons by injecting XML code into Excel Workbooks and how to link Excel VBA macros to customize ribbon objects. It now also provides examples in using ADO, DAO, and SQL queries to retrieve data from databases for analysis. Operations such as fully automated linear and non-linear curve fitting, linear and non-linear mapping, charting, plotting, sorting, and filtering of data have been updated to leverage the newest Excel VBA object models. The text provides examples on automated data analysis and the preparation of custom reports suitable for legal archiving and dissemination.
