Brain Teasers - Puzzles by Puzzle Prime

This math puzzle cannot be solved mathematically. This is because the sum of three odd numbers cannot be an even number. What you need to measure here is your attention! If you place balls 11 and 13 into the holes, you get 24. Then, if you put ball 9 upside down in the hole, you get $24 + 6 = 30$. Join MentalUP in two simple steps for more progressive brain teasers for kids and measure your results against your peers.

Brain Stretching Math Riddles This book is the second in a series of riddles books. It is a collection of 150 brain teasing math riddles and puzzles. Their purpose is to make children think and stretch the mind. They are designed to test logic, lateral thinking as well as memory and to engage the brain in seeing patterns and connections between different things and circumstances. They are laid out in three chapters which get more difficult as you go through the book, in the author's opinion at least. The answers are at the back of the book if all else fails. These are more difficult riddles and are designed to be attempted by children from 10 years onwards, as well as participation from the rest of the family.
