This is a great general overview of European history from the fall of the Roman Empire to the beginning of the Renaissance. It's a breeze to read, it isn't written in a stodgy style, and it does exactly what the author intends it to do: show that, rather than being a period of stagnation and ignorance, Medieval Europe was filled with innovations in art, writing, and architecture.

"Medieval Europe - A Short History" by Charles Warren Hollister, © 1990, 1982, 1978, 1974, 1968, 1964. This book is an amazing little textbook. I was pleased to read the explanation of the growth and development of modern European nations. The most surprising part is the growth of civilization throughout the time we were taught were the Dark Ages.

Marked by C. Warren Hollister's clear historical vision and engaging teaching style, this classic text has been judiciously revised by Judith Bennett; the tenth edition includes greater coverage of Byzantium and Islam, a revised map program, a new essay program on medieval myths, and more. In his preface to the eighth edition, Professor Hollister wrote of his realization, while in college, that our world today "is a product of the medieval past." Medieval Europe introduces today's students to the medieval roots of our own society.

Medieval Europe introduces today's students to the medieval roots of our own society. In an accessible and engaging narrative, it tells how the peoples of medieval Europe built, understood, and changed their world. Never losing sight of the neighboring civilizations of Byzantium and Islam, it has its feet firmly planted in the medieval West, from whence it gives ample consideration to such subjects as women's lives, Jewish communities, ordinary people, and the experiences of Europeans in the often-neglected centuries of the Later Middle Ages.

R.C. Davis provided the classic account of the European medieval world, equipping generations of undergraduate and "A" level students with sufficient grasp of the period to debate diverse historical perspectives and reputations. His book has been important grounding for both modernists required to take a course in medieval history, and those who seek to specialise in the medieval period. In updating this classic work to a third edition, the additional author now enables students to see history in action; the diverse viewpoints and important research that has been undertaken since Davis' second edition, and progressed historical understanding. Each of Davis original chapters now concludes with a 'new directions and developments' section by Professor RI Moore, Emeritus of Newcastle University. A key work updated in a method that both enhances subject understanding and sets important research in its wider context. A vital resource, now up-to-date for generations of historians to come.

In this newest edition of her bestselling book, Barbara H. Rosenwein integrates the history of European, Byzantine, and Islamic medieval cultures[as well as their Eurasian connections]in a dynamic narrative. The text has been significantly updated to reflect growing interest in the Islamic world and Mediterranean region. Stunning plates featuring art and architecture weave together events, mentalities, and aesthetics. Medievalist Riccardo Cristiani authors a new feature on material culture that examines the intricacies of manuscript production and the lustrous glazes of Islamic ceramics. A fully revised map program offers user-friendly spot maps that clarify events right where they are discussed as well as dazzling topographical maps that reveal the very contours of the medieval world. Helpful genealogies, figures, architectural plans, and lists of key dates complement the text. All maps, genealogies, and figures are available on the History Matters website (www.utphistorymatters.com) for easy download. Students will find this site equally useful for its hundreds of study questions and their click-to-reveal answers.

Medieval Europe: A Short History: Hollister, C. Warren ...

A spirited history of the changes that transformed Europe during the 1,000-year span of the Middle Ages: "A dazzling race through a complex millennium."—Publishers Weekly The millennium between the breakup of the western Roman Empire and the Reformation was a long and hugely transformative period—one not easily chronicled within the scope of a few hundred pages. Yet distinguished historian Chris Wickham has taken up the challenge in this landmark book, and he succeeds in producing the most riveting account of medieval Europe in a generation. Tracking the entire sweep of the Middle Ages across Europe, Wickham focuses on important changes century by century, including such pivotal crises and moments as the fall of the western Roman Empire, Charlemagne's reforms, the feudal revolution, the challenge of heresy, the destruction of the Byzantine Empire, the rebuilding of late medieval states, and the appalling devastation of the Black Death. He provides illuminating vignettes that underscore how shifting social, economic, and political circumstances affected individual lives and international events—and offers both a new conception of Europe's medieval period and a provocative revision of exactly how and why the Middle Ages matter. "Far-ranging, fluent, and thoughtful—of considerable interest to students of history writ large, and not just of Europe."—Kirkus Reviews. (starred review) Includes maps and illustrations
