More than 100,000 entrepreneurs rely on this book for detailed, step-by-step instructions on building successful, scalable, profitable startups. The National Science Foundation pays hundreds of startup teams each year to follow the process outlined in the book, and it's taught at Stanford, Berkeley, Columbia and more than 100 other leading universities worldwide. Why? The Startup Owner's Manual guides you, step-by-step, as you put the Customer Development process to work. This method was created by renowned Silicon Valley startup expert Steve Blank, co-creator with Eric Ries of the "Lean Startup" movement and tested and refined by him for more than a decade. This 608-page how-to guide includes over 100 charts, graphs, and diagrams, plus 77 valuable checklists that guide you as you drive your company toward profitability. It will help you: • Avoid the 9 deadly sins that destroy startups' chances for success • Use the Customer Development method to bring your business idea to life • Incorporate the Business Model Canvas as the organizing principle for startup hypotheses • Identify your customers and determine how to "get, keep and grow" customers profitably • Compute how you'll drive your startup to repeatable, scalable profits. The Startup Owner's Manual was originally published by K&S Ranch Publishing Inc. and is now available from Wiley. The cover, design, and content are the same as the prior release and should not be considered a new or updated product.

Design thinking is a powerful thinking tool which could drive a brand, business or an individual forward positively. It is also a part and parcel way of thinking that designers go through in their minds in every single design project. Thinking like a designer can transform the way organizations develop products and services on the front end, while improving processes and strategy to the backend. It is a way of simply thinking and ideating on a solution to address a problem or better meet a customer need. It is a process focused on solutions and not the problem. In this book you will: Understand key characteristics of design thinking Understand the 5 action phases of design thinking - Empathize, Define, Ideate, Prototype and Test Empathize- Understand your customers / users Define- Define clear project / business objectives Ideate- Explore ideas and solutions Prototype- Build and visualise ideas Test- Review and decide best idea"
