Assessment and Treatment of Non-Suicidal Self-Injury: A Clinical Perspective is the ideal primer for anyone who works with people who self-injure. Profiling who is affected as well as what their behaviour includes, the book explores the range of factors behind why people self-injure, from the influence of social media to the need for self-regulation, and offers recommendations for both assessment and outpatient treatment. Throughout, the book is permeated by profound respect for those who use self-injury in an attempt to live a good life, while conveying a deep understanding of the challenges that self-injury presents for family members and treatment professionals. It recognizes that the behaviour can spread in hospital wards or other institutional setting, introducing the concept of self-injury by proxy, and assesses the range of therapies available, including CBT, MBT, ERGT and family therapy. Each chapter is complemented by clinical vignettes. In an era when a great number of professionals will come into contact with someone who self-injures – including teachers, social workers and nurses as well as therapists – The Assessment and Treatment of Non-Suicidal Self-Injury is an invaluable resource that examines both the causes and the treatments available.

However, Mariko has no idea of the tumultuous past carried within the mask—or of its deadly link with the famed Inazuma blade she wields. The secret of this mask originated hundreds of years before Mariko was born, and over time the mask ' s power has evolved to bend its owner toward destruction, stopping at nothing to obtain Inazuma steel. Mariko ' s fallen sensei knew much of the mask ' s hypnotic power and of its mysterious link to a murderous cult. Now Mariko must use his notes to find the mask before the cult can bring Tokyo to its knees—and before the underboss decides her time is up....
