This book contains details for making golf accessible within the guidelines of the Americans with Disabilities Act (ADA), taking into account the specific needs of your community and its individual members. Case studies and other practical, field-tested information allow you to fully understand the real-world needs of people with specific disabilities - including cognitive, attentional, visual, hearing, and physical impairments - and their implications for golf instruction.

If youve been golfing for any stretch of time, youve probably been exposed to the myth that movement-based functional training and sport-specific exercise can make you a better golfer. Gary Bannister reveals a proven muscle-based alternative that gets better results: proper strength training. A longtime golfer, Bannister has played with some of the worlds greatest champions. He established and coached the mens and womens varsity golf teams at Averett College, and opened South Americas first Nautilus gym, which led him to prepare Venezuelas male and female golf teams for the World Team Amateur Championship in 1986. Bannister advises golfers to build the muscles involved in golf in the most efficient and effective way you can without trying to be
