Statistics for Management, 8e, is a comprehensive textbook designed to help students understand the statistical concepts and applications used in business and management situations. In the manner of the earlier editions, this edition too omits complex notations in favor of graphic and verbal explanations and aims to explain the subject with a practical orientation.

Hope and Optimism for Life 's Battle " Life is a puzzle, to be sure... but to every puzzle there is an answer. " The power to do anything you want resides only within you. Be A Winner urges you to make use of it and be everything you have ever wanted to be. The author, Norman Vincent Peale, has outlined in this book, methods of living and attitudes of mind that you can follow to win over any obstacle that may come your way in life. It highlights all the possible sources of your spiritual and personal power and tells you how you can use them to your best possible advantage. Norman Vincent Peale, one of the most influential clergymen of the 20th century, is the author of forty-six books, including the international bestseller The Power of Positive Thinking. He was a progenitor of the theory of " positive thinking ".Dr. Peale ' s legacy continues today through the Peale Center for ChristianLiving, the Outreach Division of Guideposts.

Principles of Classroom Management, Third Canadian Edition is designed to help you improve the teacher-student relationship in order to foster positive student behaviour and academic success. Instead of labelling students as problematic, the authors emphasize the situation, placing the onus on teachers to modify either their behaviour or the situation. The other pillar of Principles of Classroom Management is its up-to-date Canadian content. It reflects Canadian values through its references to current Canadian research, discussion of changes in Canadian schools, and coverage of best practices across the country. The case studies have also been revisited to ensure they reflect real, current issues in Canadian schools.
