Drop Addictive Sweets and Starches--and Stop Weight Gain--in 24 Hours Featuring a 5-part questionnaire to help you identify your personal craving profile Julia Ross, best-selling author and expert in nutrition and overeating, exposes the real reason so many of us can't stick to a healthy diet: our favorite foods are engineered to be addictive. At her clinic in California, Ross and her colleagues treat food addiction where it starts--in the brain--by triggering our natural appetite-regulating neurotransmitters with nutrients called amino acids. It turns out that these protein concentrates boost our neurotransmitters, which broadcast sensations of satisfaction that no food, including chocolate, can override. Thousands of Ross's clients have abolished their cravings for high-calorie confections using this simple nutritional strategy. With The Craving Cure, Ross grants all of us access to this revolutionary approach. The process begins with a five-part questionnaire that helps you identify your unique craving profile and specifies the amino acid supplements you need to curb your specific cravings. Ross's clear explanations of why and how to use the aminos empower you to reclaim your natural appetite control, and her anti-craving eating guidelines will permanently strengthen your dietary defenses. A well-researched and clinically-tested rejection of low-calorie, low-saturated fat, and low-protein diets, The Craving Cure reveals how we can effortlessly and permanently eradicate our cravings to lose weight, rediscover our nutritional heritage, and regain optimal mood, energy, and health.

book and you will embark on a groundbreaking seven-week journey that will change your life. You will learn how to break your addiction to alcohol and end your cravings--and do it under your own power. Here, step-by-step, is a proven, seven-week program developed by Dr. Joan Matthews Larson at the innovative Health Recovery Center in Minneapolis, that subdues your body's addictive chemistry and puts you on the path to full recovery.

Outlines a four-step program for treating depression, anxiety, mood swings, irritability, and sleep problems, demonstrating how to apply amino acid and other nutritional strategies for immediate relief.

First published in the US in 1999 this guide to coping with eating disorders provides advice and information about topics such as hormone irregularities, blood sugar swings, food allergies, unrecognised thyroid dysfunction and a deficiency of 'good' fats. Discusses biochemical imbalances and how they can be treated with supplements of various amino acids, minerals and vitamins. Includes references, case studies and an index.

Tapping into the mind/body/spirit connection, this holistic approach to weight loss offers an "almost vegetarian" eating plan coupled with cleansing fasts, breathing and meditation exercises, flower essences, herbal therapy, tai chi, and acupuncture and acupressure, to help restore inner balance and achieve optimum health.

Explains how to use enzymes, aromatherapy, diet, nutrition, Ayurvedic medicine, glandular extracts, exercise, and supplements to help lose weight permanently.
