How lessons from kindergarten can help everyone develop the creative thinking skills needed to thrive in today's society. In kindergartens these days, children spend more time with math worksheets and phonics flashcards than building blocks and finger paint. Kindergarten is becoming more like the rest of school. In Lifelong Kindergarten, learning expert Mitchel Resnick argues for exactly the opposite: the rest of school (even the rest of life) should be more like kindergarten. To thrive in today's fast-changing world, people of all ages must learn to think and act creatively—and the best way to do that is by

focusing more on imagining, creating, playing, sharing, and reflecting, just as children do in traditional kindergartens. Drawing on experiences from more than thirty years at MIT's Media Lab, Resnick discusses new technologies and strategies for engaging young people in creative learning experiences. He tells stories of how children are programming their own games, stories, and inventions (for example, a diary security system, created by a twelve-year-old girl), and collaborating through remixing, crowdsourcing, and large-scale group projects (such as a Halloween-themed game called Night at Dreary Castle, produced by more than twenty kids scattered around the world). By providing young people with opportunities to work on projects, based on their passions, in collaboration with peers, in a playful spirit, we can help them prepare for a world where creative thinking is more important than ever before.

The World as I See It is a book by Albert Einstein translated from the German by A. Harris and published in 1935 by John Lane The Bodley Head. The original German book is Mein Weltbild by Albert Einstein, first published in 1934 by Rudolf Kayser.

Near death, a widower who neglected his son to take driving trips in a '56 Chevy Bel Air begs his grandson to retrieve the car, a quest that leads the young man through the cities where his grandfather had his greatest adventures.

The Education of Henry Adams is an autobiography that records the struggle of Bostonian Henry Adams (1838-1918), in his later years, to come to terms with the dawning 20th century, so different from the world of his youth. It is also a sharp critique of 19th-century educational theory and practice. In 1907, Adams began privately circulating copies of a limited edition printed at his own expense. Commercial publication of the book had to await its author's 1918 death, whereupon it won the 1919 Pulitzer Prize. The Modern Library placed it first in a list of the top 100 English-language nonfiction books of the 20th century.
