From the critically acclaimed author of the New York Times bestseller The Confessions of Max Tivoli comes The Impossible Lives of Greta Wells, a rapturously romantic story of a woman who finds herself transported to the “other lives” she might have lived. After the death of her beloved twin brother and the abandonment of her long-time lover, Greta Wells undergoes electroshock therapy. Over the course of the treatment, Greta finds herself repeatedly sent to 1918, 1941, and back to the present. Whisked from the gas-lit streets and horse-drawn carriages of the West Village to a martini-fueled lunch at the Oak Room, in these other worlds, Greta finds her brother alive and well—though fearfully masking his true personality. And her former lover is now her devoted husband...but will he be unfaithful to her in this life as well? Greta Wells is fascinated by her alter egos: in 1941, she is a devoted mother; in 1918, she is a bohemian adulteress. In this spellbinding novel by Andrew Sean Greer, each reality has its own losses, its own rewards; each extracts a different price. Which life will she choose as she wrestles with the unpredictability of love and the consequences of even her most carefully considered choices?

It is 1985, and Greta Wells wishes she lived in any time but this one: she has lost her brother to AIDS, her lover Nathan to another woman, and can not seem to go on alone. To ease her sadness, her doctor suggest an unusual procedure, one that opens doors of insight into the relationships in her life, her conflicting affections, and the limitations put on a woman’s life. Throughout, Greta glimpses versions of war, history, herself, and the people she loves, and as the procedures come to an end, she realizes she must make a choice: one which will close every door but one, forever.

To alleviate her suffocating depression after the death of her twin brother and the break-up with her long-time lover, Greta Wells embarks on a radical psychiatric treatment that has an unexpected side effect, which transports her to the lives she might have had if she had been born in a different era. 100,000 first printing.

Today Show Book Club Pick An extraordinarily haunting love story told in the voice of a man who appears to age backwards We are each the love of someone’s life. So begins The Confessions of Max Tivoli, a heartbreaking love story with a narrator like no other. At his birth, Max’s father declares him a “nisse,” a creature of Danish myth, as his baby son has the external physical appearance of an old, dying creature. Max grows older like any child, but his physical age appears to go backward—on the outside a very old man, but inside still a fearful child. The story is told in three acts. First, young Max falls in love with a neighborhood girl, Alice, who ages as normally as any of us. Max, of course, does not; as a young man, he has an older man’s body. But his curse is also his blessing: as he gets older, his body grows younger, so each successive time he finds his Alice, she does not recognize him. She takes him for a stranger, and Max is given another chance at love. Set against the historical backdrop of San Francisco at the turn of the twentieth century, Max’s life and confessions question the very nature of time, of appearance and reality, and of love itself. A beautiful and daring feat of the imagination, Andrew Sean Greer’s The Confessions of Max Tivoli reveals the world through the eyes of a “monster,” a being who confounds the very certainties by which we live and in doing so embodies in extremis what it means to be human.

A Today Show Summer Reads Pick A Washington Post Book of the Year “We think we know the ones we love.” So Pearlie Cook begins her indirect, and devastating exploration of the mystery at the heart of every relationship—how we can ever truly know another person. It is 1953 and Pearlie, a dutiful young housewife, finds herself living in the Sunset District in San Francisco, caring not only for her husband’s fragile health, but also for her son, who is afflicted with polio. Then, one Saturday morning, a stranger appears on her doorstep, and everything changes. Lyrical, and surprising, The Story of a Marriage is, in the words of Khaled Housseini, “a book about love, and it is a marvel to watch Greer probe the mysteries of love to such devastating effect.”

In the title story of this collection, neighborhood boys crouch in a backyard toolshed, and conspire to prove their piano teachers to be witches. In “Cannibal Kings,” a disillusioned young man accompanies a troubled boy on a tour of prep schools through the Pacific Northwest, only to realize that he has lost his way in life. And in “Come Live With Me And Be My Love,” a middle-aged gentleman looks back at his mannered early life as a Ivy Leaguer, married to a vivacious woman but silently yearning for his best friend -- and the sacrifices that each made to uphold their compromising bargain. With a classic storyteller’s gift for nuance and understanding, and a poet’s grace for language, Andrew Sean Greer makes a remarkable debut with How It Was For Me.

In 1965, on a small island in the South Pacific, a group of astronomers gather to witness the passing of a comet, but when a young boy dies during a meteor shower, the lives of the scientists and their loved ones change in subtle yet profound ways. Denise struggles for respect in her professional life, married Eli becomes increasingly attracted to Denise and her quixotic mind, and young Lydia attempts to escape the scientists’ long-casting shadows. Andrew Sean Greer’s remarkable and sweeping first novel, The Path of Minor Planets, is an exploration of chances taken and lost, of love found and broken, and of time’s subtle gravitational pull on the lives of everyday and extraordinary people.

The inspiring true story of Greta Thunberg, a young eco-activist whose persistence sparked a global movement. You are never too young to make a difference. Ever since she learned about climate change, Greta Thunberg couldn’t understand why politicians weren’t treating it as an emergency. In August 2018, temperatures in Sweden reached record highs, fires raged across the country, and fifteen-year-old Greta decided to stop waiting for political leaders to take action. Instead of going to school on Friday, she made a sign and went on strike in front of Stockholm’s parliament building. Greta’s solo protest grew into the global Fridays for Future—or School Strike 4 Climate—movement, which millions have now joined. She has spoken at COP24 (the UN summit on climate change) and has been nominated for the Nobel Peace Prize. This timely, unofficial biography is her story, but also that of many others around the world willing to fight against the indifference of the powerful for a better future.

"Propulsive and intricate, Greta Kelly has constructed a world of twisting politics and thrilling magic following a heroine who is both clever and uncompromising, but ultimately, has heart. A stellar read that I thoroughly enjoyed." -- Emily Duncan, New York Times bestselling author of Wicked Saints A princess with a powerful and dangerous secret must find a way to save her country from ruthless invaders in this exciting debut fantasy, the first novel in a thrilling duology packed with heroism, treachery, magic, and war. Askia became heir to the Frozen Crown of Seravesh because of her devotion to her people. But her realm is facing a threat she cannot defeat by sheer will alone. The mad emperor of the Roven Empire has unleashed a horde of invading soldiers to enslave her lands. For months, her warriors have waged a valiant, stealth battle, yet they cannot stop the enemy’s advancement. Running out of time, she sets sail for sun-drenched Vishir, the neighboring land to the south, to seek help from its ruler, Emperor Armaan. A young woman raised in army camps, Askia is ill-equipped to navigate Vishir’s labyrinthine political games. Her every move sinks her deeper into court intrigues which bewilder and repel her, leaving her vulnerable not only to enemies gathering at Vishir’s gates, but to those behind the palace walls. And in this glittering court, where secrets are worth more than gold, Askia fears that one false step will expose her true nature. For Askia is a witch gifted with magical abilities—knowledge that could destroy not only her life but her people. As her adversaries draw closer, Askia is forced to make an impossible choice—and no matter what she decides, it may not be enough to prevent Seravesh’s fall.
