""The Yellow Wallpaper"" is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in The New England Magazine.[1] It is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century.Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can recuperate from what he calls a ""temporary nervous depression - a slight hysterical tendency"", a diagnosis common to women during that period"

Poe’s preference for not naming his narrators is potent once again in “The Tell-Tale Heart”, a story that is trying so hard to appear sane, but fails miserably in the end. With minute preparations, perfect calculations, and even more precise execution of the conceived gruesome act, the narrator successfully fulfils his purpose, only to be lost in a battle with his sanity and guilt afterwards. Backed by the numerous movie and theatrical adaptations, the story is considered one of Poe’s most popular and critically acclaimed. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include “The Raven” (1945), “The Black Cat” (1943), and “The Gold-Bug” (1843).

Classic Books Library presents this brand new edition of the short story, “An Occurrence at Owl Creek Bridge” (1890) by Ambrose Bierce. In this text Bierce creatively uses both structure and content to explore the concept of time, from present to past, and reflecting its transitional and illusive qualities. The story is one of Bierce’s most popular and acclaimed works, alongside “The Devil’s Dictionary” (1911). Bierce (1842-c. 1914) was an American writer, journalist and Civil War veteran associated with the realism literary movement. His writing is noted for its cynical, brooding tones and structural precision.

The King of Mazy May is a short story by Jack London. John Griffith “Jack” London (born John Griffith Chaney, January 12, 1876 - November 22, 1916) was an American author, journalist, and social activist. He was a pioneer in the then-burgeoning world of commercial magazine fiction and was one of the first fiction writers to obtain worldwide celebrity and a large fortune from his fiction alone. He is best remembered as the author of The Call of the Wild and White Fang, both set in the Klondike Gold Rush, as well as the short stories “To Build a Fire”, “An Odyssey of the North”, and “Love of Life”. He also wrote of the South Pacific in such stories as “The Pearls of Parlay” and “The Heathen”, and of the San Francisco Bay area in The Sea Wolf. London was a passionate advocate of unionization, socialism, and the rights of workers and wrote several powerful works dealing with these topics such as his dystopian novel The Iron Heel, his non-fiction expos The People of the Abyss, and The War of the Classes. On July 12, 1897, London (age 21) and his sister's husband Captain Shepard sailed to join the Klondike Gold Rush. This was the setting for some of his first successful stories. London's time in the Klondike, however, was detrimental to his health.

Startling in its observations and radical in its conclusions, this classic of women's rights literature, this work-by pioneering American feminist CHARLOTTE PERKINS GILMAN (1860-1935)-was a phenomenon when it was first published in 1898, and was eventually translated into in seven languages and reprinted around the world. From her characterization of women as virtual economic, social, and sexual slaves, dependent on men for everything from food to friendship to protection, to her call for women to free themselves from these shackles, Women and Economics electrified Victorian readers. It remains a foundational work of feminist theory, essential reading for anyone wishing to understand women's struggle for full and self-determined personhood.

A French watchmaker and Draper, who both love to fish, brave fighting in the countryside to visit their favorite spot, but are captured by the Germans.

Fiercely competitive, Matisse and Picasso engaged in one of the most formidable artistic dialogues of this century. The intense beginning of the relationship between the two artists - from the time they met in 1906 until 1917, when Matisse left for Nice - has already been amply studied, but their continuous exchange during the second part of their careers has never been examined in detail. In Matisse and Picasso, Yve-Alain Bois stages the intertwined evolution of the two giants of modern art as if it were an ongoing game of chess between two masters. As Joachim Pissarro points out in the foreword of this volume, Matisse and Picasso's dense plot and rich narrative make this work read more like a suspense novel than a traditional art history treatise. Bois' thoroughly researched historical demonstration is supported by striking visual juxtapositions of works by the two artists brought together here for the first time, making this long-awaited study a major contribution to the history of twentieth-century art.
